## About AETHER

### Securing Singapore's Digital Ecosystem

AETHER, powered by ST Engineering's deep-rooted cybersecurity expertise, is dedicated to safeguarding critical sectors—government, defence, and enterprise—with cutting-edge cyber resilience solutions. As cyber threats become increasingly sophisticated, we recognise that securing only the most visible targets is no longer sufficient. Our mission extends to fortifying the entire digital supply chain, including Small and Medium Enterprises (SMEs), which are essential to Singapore's economy.

ST Engineering Cyber business, a pioneer in cybersecurity, leverages over 25 years of proven expertise to offer a unique portfolio of solutions. These solutions, tailored to the specific needs of governments, critical infrastructure owners, and commercial enterprises, protect Information Technology, Operational Technology (OT), and cloud environments. Our cutting-edge technology, AI-driven capabilities, and award-winning innovations underscore our commitment to safeguarding our customers' critical assets.
